2026 Summer School Highlights

Solar Installation Pathway

The second cohort of our YouthBuild Solar Panel Installation Training and Certification Pilot Program worked over the summer to complete their training! This training concludes with certifying participants in Unirac's solar installation training program, equipping them with the skills needed to enter the solar workforce.

College Tour

A group of students visited The College of Saint Scholastica in Duluth and even got to spend some time by the water of Lake Superior!

Field Trips and Activities!

A highlight of the summer was visiting the state capitol in St. Paul. We're lucky to be so close to such an important location of our state's history and future!

World Cup celebrations are the best! The World Cup really brought our students and team together for shared bonding over the love of soccer! It was so much fun to have watch parties in the cafeteria and root for so many different teams!

Finishing Summer School!

We celebrated another great session of summer school with a shave-ice truck in front of the school. Thanks, Kona Ice!

Important Dates

- September 1 and 2: Back to School Registration (attend one date)
- September 8: First Day of School
- September 23: Half-Day (Professional Development)
- October 9: Half-Day (Mid-Quarter Negotiations)

GAP SCHOOL'S MISSION STATEMENT

GAP School's mission is to empower communities challenged by transition and poverty through education and enrichment opportunities, social and emotional support, and training that leads to employment.
